TO LOOK YEARS YOUNGER

# LIFT MESO CONCEPT STARTER PACKAGES

To look years younger - the Lift MESO Concept is a new and very efficient method for the regeneration and rejuvenation of the skin. The skin is smoothed and additionally hydrated. Then gently active substances (hyaluronic acid) are introduced with the especially for this developed Lift MESO cartridge. The active ingredients provide the skin with moisture and stimulate the regeneration of collagen and elastic fibers.

In 7-day intervals 5 treatments are recommended each lasting about 30 minutes and every 3-6 months the treatment has to be repeated. The best results are achieved for tired, stressed skin and

fine wrinkles. After a detailed skin analysis, you decide with your client the most suitable serum. The treatment is particularly effective and pain-free! Effectiveness and efficiency of the Lift MESO Concept show after just a few applications and you will be impressed by the immediately visible results.

Lift MESO hygiene cartridges are compatible with the devices Swiss Liner TOP sensi drive, Swiss Liner Advanced, Swiss Liner Infinity, Swiss Liner Symphony and Swiss Liner H.

# LIFT MESO CONCEPT

## HIGHLY ACTIVE SERA

The Lift MESO Concept consists of the Lift MESO treatment and a high-quality home care to support and strengthen the treatment results. We offer three different active substances:

### Glycolic 10%

Peeling based on sugarcane extracts.

The Glycolic 10% acid is used for preparing the skin for the Lift MESO treatment. Its possible to solve even strong calluses. Especially recommended for sensitive skin and for the first treatment.

Attention: Always stay with the customer during the peeling process. In case of excessive redness remove it with the Neutralisat.

ITEM NO.	SIZE
1167	100 ml

### Glycolic 20%

Peeling based on sugarcane extracts.

The Glycolic 20% acid is used for preparing the skin for the Lift MESO treatment. Its possible to solve even strong calluses. Especially for further treatments and firm skin structures of the customer.

Attention: Always stay with the customer during the peeling process. In case of excessive redness remove it with the Neutralisat.

ITEM NO.	SIZE

### Neutralisat

Neutralizes all acids.

Use the Neutralisat to neutralize all acids (fruit acids, Glycolic acids, salicylic acids). This product interrupts the reaction of the acid fluid on the surface of the skin, due to its alkaline composition. Tip: Please protect your skin from harmful sunlight and use sun-protection products after all acid treatments.

ITEM NO.	SIZE
1168	200 ml

### Eyecare

Hightly active serum for the reduction of eye bags

Eyecare is a highly active serum to reduce puffiness, eye bags and dark pigment deposition in the eye region. Eyecare consists of a 3-fold hyaluronic acid, with an emphasis on low molecular weight hyaluronic acid, in order to ensure deep infiltration.

1165	30 ml

# LIFT MESO CONCEPT HIGHLY ACTIVE SERA

## Tissuecare

Highly active serum for stimulation and stabilization of the tissue.

Tissuecare is a highly active serum that supports the tissue structure of the skin. The hyaluronic acid (3-fold hyaluronic) infiltrates deep into the skin and backfills the skin from the inside out.

ITEM NO.	SIZE
1163	100 ml

## Trophocare

Highly active serum for the reduction of wrinkles and fine lines.

Trophocare stimulates the collagen production and therefore also a reduction of facial wrinkles. A combination of hyaluronic acid, Genistein and Diosgenin stimulates the cell division and cell production. Matrixyl, an approved collagen booster, stimulates the production of Collagen I, II, III and IV. Agriline and Synake counteract facial wrinkles, as well as Spilanthol.

ITEM NO.	SIZE
